PROFILE INFO

My name is Damilola Onaopemipo Jerugba. I am a FullStack Developer, Technical Writer and Digital Artists

WORK EXPERIENCE

▶ **2019 - 2020**
FULLSTACK DEVELOPER
JETRON MALL
Building backend services and user interfaces to help online merchants list and sell their products to their customers.

▶ **2020 - 2021**
LEAD FRONTEND ENGINEER
TOOLBOX
With Google Maps integration, I built web applications to bridge the gap between customers and artisans.

▶ **2020 - 2022**
LEAD FRONTEND ENGINEER
JETRON TICKET
Building backend services that accustomed a payment gateway to provide user a way to pay for event tickets online.

▶ **2021 - PRESENT**
LEAD FRONTEND ENGINEER
BRIMBLE
Converted UI/UX designs into fully functioning ReactJs applications, providing a user interface for thousands of users to help host their web applications with ease.

▶ **2020 - PRESENT**
TECHNICAL WRITER

I write comprehensive dev articles to explain programming concepts. I mostly write on Frontend development through my personal blog and DEV.to

▶ **2019 - PRESENT**
FREELANCE WEB DEVELOPER

I have worked with frontend technologies/frameworks for years and have built high performant websites that are SEO friendly, I take into account website load time with image optimisation and PWA (progressive web applications).
